

Your Wedding Video Planner

*Thank you for looking at The South 40
to capture your wedding day on video!*

*We see your wedding day as a story in and of itself and we treat it as such.
Our energy goes into producing this story with the best tools and resources available.
You're worth it.*

**Preparation is the key!
To cover all of your
important events, we will
need to plan our day
around yours. Help us
organize all of your
thoughts as they relate to
your video.**

Information we'll need from you...

Address, contact name, phone number and e-mail for your ceremony and reception. Also for rehearsal dinner or photo session if applicable.

Name, phone, e-mail for your wedding planner, Photographer and DJ and/or Band.

We'll need to get us a copy of any special rules or restrictions for videotaping at any of your locations.

Directions, parking rules and wardrobe requirements for you locations.

Will a meal be provided for us at the reception?

What to expect from us

We will work with you and your locations weeks before the event to make sure everything goes off without a hitch on our end. On the day of, you can expect one well-dressed videographer with two cameras and necessary equipment. We will arrive one hour before the ceremony starts and begin shooting shots of the venue. We will also get the microphone on the groom or official.

Our job is to stay out of everyone's way and get the story on video.

Our basic set up is to have one unmanned camera in the back of the room looking down the aisle and one manned camera near the location where you will end up together near the official. We always try to get in the best position to capture your faces throughout the ceremony.

At the reception, we capture all of your main events.

Usually we end our day after capturing some of the guest dancing.

If you have any events at the very end that needs captured, please let us know in advance!

Questions for you

Who will be wearing the microphone?

We can place it on the Groom or the Official. Ideally, we prefer the Groom to wear it. You also have the option of having both wear a microphone which is a great touch.

Would you like short interviews with the bride and groom after they get ready?

We will ask simple questions like how you met, how you got engaged and how you are feeling in the moments before being married!

Is there anything special you may want captured on video?

For instance signing of the marriage license or footage of the photo shoot?

Do you have any questions about our contract?

We will meet with you and go through all of the specifics of your big day. Everything will be clear and in writing.

Our Package

1 Camera Operator
2 Cameras
1 DVD
\$900

**450 due at signing of contract with remainder due day of wedding*

Final Thoughts

Our wedding video package gives us enough for a professional video. However, you get to play producer!

We offer add-ons that you can choose to raise the production value of your video.

These add-ons can include HD Blu-ray production, additional cameras, photo montages, professionally lit guest interviews and even bride and groom audio commentary

Our goal is to produce a video that captures your day in the best quality possible. Quality of light at each venue will have a big impact on the look of the video. Ask us about this!

You'll have seven days from receipt of your DVD to request changes.

Please allow six to eight weeks after your event for delivery of your finished DVD.
